**Re: Amendment to the Township's Zoning By-law – Cambridge Aggregates Inc.
1182 Alps Road - Part of Lot 15, Concession IX and Part of Lot 15, Concession X**

I wish to advise that Cambridge & North Dumfries Hydro Inc. has no objection to the proposal by Cambridge Aggregates Inc. to amend the Zoning By-law to allow for the expansion of the licensing area and development of a gravel pit operation at the locations shown on the north and south sides of Alps Road.

As stated in our letter of December 7, 2009 to K. Smart Associates Limited on the Pre Consultation Submission; Cambridge Aggregates Inc. will be responsible for all costs to provide additional or increased electrical services, plus all costs for relocation of the existing electrical plant, if required as a result of this proposal.

It is expected that the Applicant will be able to provide electrical loading details at the time an application to the Township's Site Plan Approval Committee has been made.

Should you require additional information, do not hesitate to contact me at your convenience.

Yours truly
 CAMBRIDGE AND NORTH DUMFRIES HYDRO INC.
